Subject: Fw: GM review of Diesel SCR Inducement Strategy

I think we should all participate in this call if possible.

Steve or Chris - could one of you provide a quick overview of GM's SCR system (latest decisions wrt warning, inducement, freeze protection, etc.). Chris I believe you have the spreadsheet with the summary of the various LD mfrs.

**Deliberative Process / Ex. 5**

In

fact, any leg work you can do (talk to Greg or Cliff) before the call would be helpful.

Thanks,  
Linc

Subject: GM review of Diesel SCR Inducement Strategy

---

We would like to review GM's production intent strategy for diesel SCR inducement with EPA and ARB before we finalize our software. GM's software freeze is fast approaching, so I've arranged a meeting time with Greg Orehowski and hope this timing works with Ann Arbor as well. I already know ARB is not available this week.

#### MEETING NOTICE

Subject: GM's production intent SCR inducement strategy  
Date: Tuesday, March 17, 2009  
Time: 2:00-3:00 pm EST  
MML: code **Conference Line / Ex. 6**

We will follow-up with ARB as soon as we can arrange a meeting time. Please respond if you cannot attend.

Thank you,

Andy Barren  
General Motors
